# ARINDAM KALITA

*Industrial and Product Designer.*

designsbyarindam@gmail.com
@art.arindam
www.designsbyarindam.com

## EDUCATION

*Year_ 2023 - 2027*

**UNDERGRDUATE**

*BFA in Product and Industrial Design*

***Parsons School Of Design, NYC***

CURRENT GPA : 3.89

## SKILLS

### ADOBE SUITE

- Illustrator
- In-design
- Premiere-Pro
- Light Room
- Photoshop

### CAD

- Fusion 360
- Keyshot
- Solid Works
- Rhino

### 3D PRINTING

- Slicing
- Making CAD models print ready
- Using a 3D Printer
- Printer Maintainence

### SHOP SKILLS

- Wood Working
- Laser cutting/ Engraving

### OTHERS

- Product Photography
- Sketch Illustration

### AI WORKFLOW

- Ai Rendering / Render animations

  Workflow using Google Flow and Firefly for CAD and illustration render images / videos . Using Vizcom to generate rendering backplates.

- Arduino based prototyping

  Claud code / Gemini

## WORK EXPERIENCE

***June 2026 - August 2026***

**Watch Design Intern, FOSSIL**

- Developed product concepts to strengthen customer retention across India's Tier 1 markets.
- Designed 8 watches across 3 collections for the Indian Tier 1 market; select models advanced to sampling and potential commercial production.
- Presented design concepts and market strategies to senior leadership, including the VP of Design and Head of Indian Market.

***January 2026 - May 2026***

**Product design Tutor, Parsons School of Design**

- Provided hands-on instruction and technical support to 30+ undergraduate students in 3D printing, slicing software, and rapid prototyping workflows.
- Managed and maintained open-access 3D printing systems supporting 20+ users daily, ensuring safe, reliable, and accessible operation.
- Troubleshot printer hardware, materials, and print failures while optimizing workflows to improve studio efficiency.

***January 2026 - June 2026***

**Design Intern, WTDA Inc.**

- Led the successful design of relaunch and rollout of new SKUs across three brands within the company portfolio.
- Identified and resolved complex cross-functional design challenges across the product ecosystem, improving user experience and product utility.
- Collaborated directly with the CEO to align product curation with core consumer and brand strategy.

***Summer 2025***

**DESIGNER- CIRCULAR ECONOMYS MANUFACTURING**

Governors Island, NYC

- Prototyped products using 3D printing and developed hands-on knowledge of rotational molding processes.
- Learned material collection and processing methods for recycled production and sustainable product development.
- Supported factory operations and product sales while contributing to sustainable design initiatives.

## CURRENT BRAND ASSOCIATIONS

**BambuLab Campuss Ambassador**,
The New School 2026- 2027
